

DHARANI ESWAR G K

Java Full Stack Developer | MERN Stack Developer | Frontend Developer

Madurai, Tamil Nadu, India | 6369352911 | dharanigk2018@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Java Full Stack Developer with experience as a Software Engineer Trainee and frontend development intern. Skilled in Java, Spring Boot, React, Next.js, Node.js, Express.js, MongoDB, REST APIs, and full-stack web development. Built projects spanning AI-powered customer support, secure e-commerce, real-time chat, and responsive React interfaces.

TECHNICAL SKILLS

Languages: Java, JavaScript

Frontend: HTML, CSS, React, Next.js, Tailwind CSS, Responsive Web Design, React Query, Redux

Backend: Spring Boot, Node.js, Express.js, REST APIs, Spring Security, JWT, CSRF, Role-Based Access Control, Ruby on Rails

Database/ORM: MongoDB, PostgreSQL, Hibernate, JPA, Flyway, pgvector

AI/Tools: RAG Pipeline, Semantic Search, Embeddings, Ollama, Spring AI, Socket.io, Git, GitHub, Docker, Docker Compose, Render, Netlify, Cloudinary

Testing/Concepts: JUnit, Mockito, MockMvc, OOP, DTOs, Validation, Exception Handling, Layered Architecture, Clean Code

PROFESSIONAL EXPERIENCE

Software Engineer Trainee | Paychex May 2025 - May 2026

- Worked in a professional software development environment on application development, debugging, enhancements, and maintenance tasks.
- Contributed to backend development using Ruby on Rails while building real-world SDLC, version control, and code quality experience.
- Collaborated with team members to analyze requirements, troubleshoot issues, and implement technical solutions; focused career direction toward Java Full Stack and JavaScript roles.

Intern | CDW January 2024 - May 2024

- Gained hands-on frontend development experience using HTML, CSS, JavaScript, Responsive Web Design, and React.
- Developed responsive, browser-compatible web pages with clean UI layouts, styling, and client-side functionality.
- Strengthened component-based development knowledge using React and practical frontend application structure.

PROJECTS

FlowPilot AI - RAG-Based Customer Support Workflow Platform Java, Spring Boot, Next.js, PostgreSQL, pgvector, Ollama, Docker

- Built a full-stack AI-powered customer support platform using Spring Boot, Next.js, PostgreSQL pgvector, and Ollama.
- Implemented role-based workflows for Admin, Support Agent, and Manager using Spring Security, HttpOnly JWT cookies, and CSRF protection.
- Developed PDF ingestion to extract, chunk, embed, and store policy content for semantic search and RAG-based answer generation with citations.
- Designed REST APIs for document upload, case management, AI recommendations, user workflows, manager review actions, and Docker Compose deployment.

E-Commerce Web Application Java, Spring Boot, React, TypeScript, PostgreSQL, Spring Security, JWT, Hibernate

Live Demo: [E-Commerce Product Page](#)

- Built a full-stack e-commerce application with customer/admin workflows using Spring Boot, React, and PostgreSQL.
- Developed REST APIs for product management, cart, order placement, stock updates, shipping address handling, and Cloudinary image upload.
- Implemented JWT authentication, Spring Security authorization, role-based access control, DTOs, validation, global exception handling, and Flyway migrations.
- Built React/TypeScript frontend with routing, protected routes, Fetch API integration, JUnit/Mockito/MockMvc tests, and deployment preparation for Render and Netlify.

Personal Portfolio Website**Live Demo:** [Portfolio Website](#)

- Built a responsive personal portfolio using React and Tailwind CSS to showcase projects, skills, and experience.
- Implemented theme toggling and reusable React components for a clean, responsive user experience.

Quick Chat - Real-Time Chat Application MongoDB, Express.js, React, Node.js, Socket.io, JWT, Render**Live Demo:** [Quick Chat](#)

- Built a full-stack real-time chat application using the MERN stack with Socket.io for instant communication.
- Implemented user authentication, message creation, real-time message updates, and MongoDB-based data storage.
- Developed and deployed the React frontend and Node.js/Express backend with Render.

EDUCATION

Bachelor of Engineering in Computer Science and Engineering | Velammal College of Engineering and Technology | 2024 | CGPA: 8.89/10 | Distinction
